RGRS/RGRT 90% Upflow Gas Furnace

The Ruud Value Series 90 High Efficiency line of gas furnaces is a valuealternative which enjoys the benefits of high-efficiency at lower cost.

- Integrated Furnace Control Integrated control board manages all operational functions and provides accessory hookups for an electronic air cleaner.
- Draft Inducer
 Quietly provides air for combustion while venting the products of combustion from the heat exchanger outdoors.
- Direct Spark Ignition & Remote Sensor
 The direct spark ignition is an efficient method of gas ignition while the remote sensor monitors the flame.
- In-Shot Burners
 Regulates the air/gas mixture.
- Blower Motor
 An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.
- Primary and Secondary Exchanger
 Provides reliable and efficient comfort to your home by
 delivering heat quickly and evenly by extracting additional
 heat which is lost by less efficient furnaces.

Limited Warranty Information Heat Exchanger Warranty: 20 Years Conditional Parts Warranty (Registration Required): 10 Years

High Efficiency 92% A.F.U.E. and above Upflow Models

Heating Capacities from 45,000 to 120,000 BTU/Hr
