When you choose Rheem *Prestige Series*[™],
you're buying the best there is.

A home comfort system
designed to delight
and satisfy.

Model RHC-TST412MDMS

The Furnace for Everyone and Every Part of the Home

- At the thermostat, air temperature can be maintained within one-half degree of the desired setting. Everyone is comfortable.
- The very low-speed continuous fan mode minimizes hot or cold spots, maintaining a uniform temperature while it constantly filters the air to help you keep your home cleaner.
- With the touch of a button on the Rheem *Contour Comfort Control* Thermostat, you can program the desired temperature settings to meet your changing heating requirements throughout the day, and even check the outside air temperature.
- A remote sensor communicates the temperature in any part of the home to the thermostat and the furnace.
- The compact size of the furnace allows greater installation flexibility and supports the easy addition of an electronic air cleaner and humidifier.
- Your family will save money on energy bills because this patented Rheem technology provides energy efficiency, which adds up to a lifetime of savings.

The Rheem Modulating Gas Furnace Thermostat

One reason for the remarkable performance of the Rheem *Prestige Series*[™] Modulating Gas Furnace is the unique touchscreen thermostat. This thermostat analyzes the heat loss of your home and directs the furnace to give you the precise temperature at the precise time you desire it. The fresh appearance, and large, lighted, and touchscreen display allows convenient and instant viewing. The thermostat features easy menu-driven programming that allows you to set your weekly temperatures – then the option to adjust them for the weekend, when your temperature preferences typically change. The Modulating Gas Furnace Thermostat also has integrated dual fuel capabilities, which means the need for external fossil fuel kits is no longer an issue. The benefits of the *Contour Comfort Control* System can be fully utilized when used in conjunction with the Modulating Gas Furnace Thermostat.

Peace and Quiet

A vital part of your comfort is peace and quiet. And this is where the quiet operation of the Rheem *Prestige Series*™ 90 Plus Modulating Gas Furnace with *Contour Comfort Control* pays real dividends.

The Rheem *Prestige Series*™ 90 Plus Modulating Gas Furnace operates at just above a whisper, far more quietly than a conventional furnace.

Sound Comparisons with the Rheem *Prestige Series*™ Modulating Gas Furnace

How It's Different and Why It's Better.

While the Rheem *Prestige Series*™ 90 Plus Modulating Gas Furnace is a highly sophisticated heating product, the concept behind it is quite simple.

A conventional furnace is either "off" or "on" at 100% capacity depending on the demand for heat. Thus, the temperature in your home goes up and down, varying as much as five degrees, while the furnace cycles.

Furnace Features

1. Primary Stainless Steel Heat Exchanger
2. Direct Spark Ignition & Remote Flame Sensor
3. Modulating Gas Valve
4. Burner
5. Two-speed Induced Draft Blower
6. Modulating ECM2+ Blower Motor
7. Integrated Furnace Control
8. Secondary Heat Exchanger
9. Easy-Access Washable Filter

The Rheem *Prestige Series*™ 90 Plus Modulating Gas Furnace is seldom "off" and seldom "on" at 100%. Your Rheem *Prestige Series*™ 90 Plus Modulating Gas Furnace is so quiet, you may never know it's on. And it's so frugal with both gas and electricity, that it has perhaps the highest overall efficiency* of any furnace.

*This furnace has a superb A.F.U.E. rating of 92% or greater. However, A.F.U.E. considers only gas and not electricity consumption. The electrical savings of this furnace are substantial when compared to a conventional 90 plus furnace design. Ask your contractor for an estimate of savings in your area.

The Latest Technology Comes to You With Proven Dependability

While the Rheem *Prestige Series*™ 90 Plus Modulating Gas Furnace brings you the latest in comfort technology, it also brings you proven dependability.

Before this furnace design was ever released to the general public, it spent several years undergoing arduous testing in the laboratory. Then it was field tested in more than 200 homes across North America, including places with the toughest weather extremes of sub-zero temperature, high wind, high humidity, and high altitude.

This is a furnace you can count on, a furnace that's proven itself worthy of the Rheem name.

This exhaustive process of bringing you reliable products has helped Rheem exceed the stringent standards of the International Standards Organization and achieve ISO 9001:2008 certification.

The Rheem Prestige Series™ 90 Plus Modulating Gas Furnaces with *Contour Comfort Control* – the only fully modulating gas furnace in North America – earned the ARI Innovation Award from a select panel of technical judges.

Energy Star Compliant

For energy conservation and clean air, choose a Rheem high-efficiency furnace. You could save between 15% and 40% on your utility bills (depending on the age of your existing equipment), and help the environment in the process.

Utility companies may offer rebates when you purchase high-efficiency heating and cooling equipment. Call your local utility company for more information.

Outstanding Limited Warranty

Rheem supports its furnace equipment with strong limited warranties and dependable, professional service. All parts are covered by a ten-year limited parts warranty, and a limited lifetime Heat Exchanger Warranty is applicable on all models. In addition, a conditional Limited Lifetime Replacement Warranty applies to RGFD, RGGD or RGJD models for Rheem to provide a replacement RGFD, RGGD or RGJD Gas Furnace to the original purchaser if the heat exchanger fails during the lifetime of the unit. See our *Prestige Series™* Limited Warranty Card for more details.

Protection You Can Count On

While your Rheem equipment is incredibly dependable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Rheem Furnace – without worrying about the cost of parts or labor for unexpected repairs. Ask your contractor about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit www.protectionplusonline.com.

KwikComfort® Financing

Ask your Rheem contractor about *KwikComfort® Financing*, the easy and convenient way to finance everything associated with your Rheem equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.
