Features & Benefits:

- 1. Durable Cabinet.** Our galvanized steel cabinet protects your Rheem unit from the elements, helping reduce maintenance expense.
- 2. Serviceability.** Service time and expense are kept to an absolute minimum. The removal of one panel provides your technician easy access to all internal components.
- 3. Low Corrosion. Low Sound.** A special base pan elevates the unit off the pad and away from corrosive condensation. More quiet performance and lower vibration levels also result.
- 4. Fan-tastic.** Our motor mount prevents damage to your fan motor, extending its service life.
- 5. Wrap-Around Coil.** High-quality copper tubing and corrosion-resistant aluminum fins provide better airflow, improved efficiency, and lower operating costs.
- 6. Compressor Protection.** If your refrigerant level is ever too high or low, on-board safeguards protect your compressor from damage.
- 7. Heart & Scroll.** The heart of your condensing unit is the compressor. That's why every Rheem unit features a Scroll® Compressor – widely recognized as the industry leader for performance and durability.
