Rheem.com

INGREDIENTS FOR A COMFORTABLE HOME

Rheem® Classic® Series Oil Furnaces have all the right features to create a comfortable home for you and your family. Quality features deliver peace of mind, so you can stay focused on what matters most.

**Rheem Classic Series
Oil Furnace Model ROCA/ROLA, ROCB**
Efficiency: ROCA/ROLA – up to 85.9% AFUE¹
ROCB – up to 86.5% AFUE¹

Peace of Mind

In addition to many features to ensure years of reliability, you also have a choice of premium branded burners.

Reliability

We're serious about the quality and reliability of our products. Our oil furnaces have a 3-pass European-designed heat exchanger for optimal efficiency.

Why Rheem®?

Enjoy warm, cozy winter nights with a Rheem Oil Furnace. Rheem offers products that fit every budget, so your family can enjoy dependable home comfort for years to come. We focus on bringing homeowners The New Degree of Comfort® through the development of energy-efficient Heating and Cooling solutions designed to save money and go easier on the environment. With a Rheem Oil Furnace, you'll enjoy a perfect balance of comfort, efficiency and reliability.

Count on Staying Comfortable

Rheem *Classic*® Series Oil Furnaces are designed for the low-profile needs of today's homes. You can count on enjoying quiet and affordable comfort for years to come.

Durable Construction

Rheem *Classic* Series Oil Furnaces are built around a 10-gauge primary heat exchanger and a 14-gauge secondary heat exchanger and are lined with specialty-grade 18SR Stainless Steel for extra protection. These dependable furnaces are also equipped with ceramic fiber combustion chambers that are completely removable for easy servicing.

Multiple Motor Options

Since airflow control is one of the most important factors in maintaining comfort in your home, we offer you the choice between a 4-speed PSC Motor or a high-efficiency ECM Motor. The PSC motor is designed to operate at four set speeds. The ECM Motor uses an advanced, variable-speed motor that automatically changes speed for heating and cooling mode requirements—eliminating sudden bursts of air while providing consistent temperatures throughout your home.

Preferred Premium Burner Brands

Choose between Beckett®, Carlin® and Reillo® premium branded burners. We understand that you may prefer one brand over another for various reasons, so the choice is yours.

Rheem.com

¹Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency. ²Residential applications only. For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local contractor or go to Rheem.com for a copy of the product warranty certificate. Conditional warranties must be registered through registernyunit.com
